Near Term OAR 11-1-16.xlsx

Attached is an updated spreadsheet of the OAR near term items. Not sure how this relates to the reg near term items you mentioned in your email – haven't seen that list – so I hope the attached is helpful.

Josh,

Most of the OAR near term items got moved to the reg near term items so please don't be concerned if you see an updated near term issues list and most of your issues are not there.

Thanks,

Una

OK. If you can send me updates to the other near term items, that would be great. Shannon wants to share with the DAAs at their lunch tomorrow so I need to give her a clean version tonight. We can tell her the NAAQS ones are in progress.

Thanks,

Una

Subject: Near term items

Josh,

Carissa,

I'm working to finalize the near term items spreadsheet. I've reviewed the OAR near term items and have some comments/questions.

Overall, we need to make sure we have actual dates in the dates column because we want to be able to sort by this column also. We also want to sort by the "Who needs to make the decision" column so please put the one position that needs to make the decision into this column. If there are any potential implications or controversies associated with this decision, please add them to the brief description.

Do you think you can get me feedback by mid-day tomorrow? I know that's a quick turnaround. If you need more time, I can see if I can get you some.

Thanks,

Una
